If the puppy must be euthanized it will be at the Buyer's expense. Breeder will replace the puppy with the first available puppy of same breed and value from the Breeder's stock as soon as possible. No refunds will be given, and no further health guarantees apply. Breeder assumes no responsibility for expenses of any kind including vet or any travel fees accrued. We cannot guarantee that your puppy will never develop any health problems in the future as some things are just not able to be predicted. We have done our very best to physically and genetically test our puppy's parents to support the future health of all of our puppies. If anything does occur, you are required to inform us so we can evaluate the parents and the other puppies from that litter in an attempt to determine the cause of the ailment and to eliminate the issue in future litters.

Should the puppy die unexpectedly within the two year time frame, a necropsy must be performed, and a diagnosis of a life inhibiting genetic defect must be proven to be the cause of death. Copies of necropsy results and any paperwork about death must be provided to Breeder. Breeder will replace the puppy with the first available puppy of same breed and value from the Breeder's stock as soon as possible. No refunds will be given and no further health
